

# Plans and Introductions

## Time

1. How much time do I have?

$$122 \text{ days} = 17 \text{ weeks}$$

## Questions and Videos

Algo:

1. Videos : 236 mins = 4 hours

2. How many coding questions :

① Easy : 31

② Medium : 73

---

104

System:

1. Video : 660 mins = 11 hours

2. Questions : 13 questions

## Plans

Time: 2 hours every day, 8-10am

By this Friday, finishing Algo Video

---

Two Easy questions each day : Oct 5 ~ Oct 31

one Medium question each day : Nov 1 ~ Dec 31

---

Do the questions by category !!

---

## How to do the questions?

1. Do not time myself at the beginning

2. Start timing in December (40 mins)

# Coding Skills

1. Descriptive Variable Naming : name the variable easy to understand

★ Communicate with interviewer if I want to write asycrone of a variable name

2. Abstraction : create multiple helper methods instead of one big complex method

★ Tell the interviewer what you are doing

3. Documentation : explain what the codes are doing by writing document.
